Currently pursuing my Engineering Degree in Software Engineering at the Higher Institute of Computer Science and Multimedia of Sfax (ISIMS) following a Bachelor's degree in Big Data, I am writing to express my strong interest in a Data internship within your organization. My academic track record and practical project experiences—ranging from data augmentation and deep learning to robust backend architecture—have equipped me with a versatile, data-centric problem-solving mindset. I am highly motivated to contribute to your innovative projects and deliver concrete value to your development team.

EDUCATION

ISIMS Sfax	Sfax, Tunisia
Bachelor of Computer Science	2022-2025
ISIMS Sfax	Sfax, Tunisia
Engineering Degree in Software Engineering	2025

WORK EXPERIENCE

Web Development Internship	2024
- Architected and deployed a complete appointment booking and management web platform for the Bougmiza store. - Developed a robust backend using Laravel , implementing an administrative control system with 3 distinct, role-based access levels. - Built dynamic, fully responsive user interfaces using HTML5, CSS3, JavaScript , and Bootstrap . - Integrated an automated email notification system to send instant booking confirmations to clients.	
Graduation Project (PFE) Internship: Transformer Model Development for Agri-Tech	2025
- Designed and developed transformer-based deep learning models for sentiment analysis on agriculture-related textual data. - Performed data annotation and preprocessing to build high-quality domain-specific datasets. - Applied data augmentation techniques to enhance model performance and robustness. - Contributed to a research-oriented project under academic supervision.	
Intelligent Bakery ERP	2026
- Designed and developed a full-stack intelligent ERP web platform for bakery operations management, covering products, inventory, sales, suppliers, employees, and customer orders. - Built a responsive web application using React.js, Node.js (Express), MySQL, HTML5, CSS3, and Tailwind/Bootstrap, following a modular microservice-oriented architecture. - Implemented machine learning forecasting models (Moving Average baseline and Ridge Regression), achieving measurable improvements in prediction accuracy over baseline models.	

CERTIFICATIONS

Power BI Certificate in Data Visualization	2024
Introduction to Data and Data Science	2024
Data Cleaning and Preprocessing with pandas	2024

LANGUES

Arabe:Maternel	Francais	Anglais:B2
----------------	----------	------------

LEADERSHIP & COMMUNITY INVOLVEMENT

Member in IEEE Student Branch	(2022 - 2023)
IDER Club	(2023 - 2024)
Microsoft Club	2025

SKILLS

Programming Languages: C, Python, HTML, Java, JavaScript, XML
Databases: MySQL (SQL), MongoDB (NoSQL)
Frameworks / Backend: Laravel, PHP, Spring Boot
Visualization Tools: Power BI
AI / Machine Learning: PyTorch, Transformers (RoBERTa, DeBERTa, T5) — Hugging Face
Frontend : Bootstrap, CSS, React/Next.js/Angular
DevOps & Outils: GitHub, Docker
